Kapitel 12: Tale of two people

Once there had been a boy and a girl
she was his mistress and he was her world
her disciple and her were connected by mind
London Bridge´s fallin´ and three mice got blind

they promised to care
whenever one´s in need
they promised to dare
in fate they will meet

seeing the moon
they start to think of each other
missing each soon
she wants to be with her brother

Hugging and cuddling
never want to let go
they stand there huddling
not afraid to show

their kind of caring
their way of daring
against the crowd
she started to shout:

Let us be as we want to
you´ll never understand
what connects us - not you
